ABOUT TOBIT INTERNATIONAL

Tobit International Limited was founded in August 2024 in Lagos, Nigeria, with a clear vision; to offer people a secure and reliable way to preserve and grow their wealth through gold. At Tobit International, we are dedicated to offering the most secure and transparent gold investment services in the market. We understand that every person's financial journey is unique. That's why our approach is personal, ensuring that your needs are met with the utmost care, integrity, and expertise. Whether you are looking to buy gold bars, sell old jewelry, or store your gold safely, we are here to ensure you have a trusted partner by your side. Our commitment to excellence, security, and customer satisfaction sets us apart from the rest.

Before establishing a presence in Nigeria, Tobit International achieved great success in Ghana, where we built a reputation for delivering quality products and secure transactions. We specialized in providing premium gold bars, refining, and gold safekeeping services. Encouraged by this success and the high demand for gold in Nigeria, we decided to expand into the Nigerian market, which presents significant opportunities due to its growing middle class, a large number of investors, and increasing interest in hedging wealth against inflation.

Why We Chose Nigeria:

Nigeria is home to a vibrant economy and a growing middle class, many of whom are increasingly turning to gold as a stable and trustworthy investment. We saw this as an opportunity to expand and bring our secure, reliable gold investment services to a larger audience. With a deep understanding of the market and the demand for gold, we are now here to offer our expertise to help people preserve wealth and secure their future.

SERVICES

At **Tobit International Limited**, we take pride in offering a range of gold investment services designed to cater to the needs of both individual and institutional clients. Our services are built around one core mission: to help our clients preserve and grow their wealth by providing secure, reliable, and transparent access to gold.

Gold Bars Investment

One of our flagship services is the sale of gold bars. Gold has long been considered one of the safest and most reliable investments, offering protection against inflation, currency fluctuations, and economic downturns. At Tobit International, we provide high-quality, certified gold bars that meet international standards. Whether you're a seasoned investor or someone new to the gold market, our gold bars are a perfect option for anyone looking to diversify their investment portfolio and build long-term financial security. We offer gold bars in a variety of sizes and weights to suit different investment needs. Our clients have the flexibility to purchase as little or as much gold as they want, making it accessible to a wide range of investors. Each gold bar is thoroughly inspected and verified for authenticity and purity, ensuring that you receive only the highest quality gold with every purchase.

Why Choose Our Gold Bars?

- **Purity and Quality:** We guarantee that each gold bar we sell is certified for its purity and quality.
- **Secure Transaction:** Every gold bar purchase is handled with strict confidentiality and security.
- **Custom Sizes:** We offer a wide range of sizes, so you can invest at your comfort level.

Gold Refining and Testing Services

At Tobit International, we also offer gold refining and testing services, ensuring that our clients can verify the authenticity and value of their gold. This service is essential for anyone looking to ensure the quality of their gold or refine it for other uses. Our advanced gold testing equipment and certified professionals make the process seamless and accurate. Our testing services include a thorough analysis of gold purity and weight, allowing you to determine the exact value of your gold assets. This service is particularly useful for those looking to sell or trade their gold, ensuring you get the best possible return on your investment.

Purchasing Broken or Unwanted Gold Jewelry

In addition to selling gold, Tobit International offers a unique service where we buy old, broken, or unwanted gold jewelry. Many people have gold jewelry that they no longer wear or that may be damaged. Instead of letting these valuable pieces sit idle, we offer you the opportunity to turn them into cash or other gold investments. Our gold buying service is quick, transparent, and hassle-free. We assess the value of your gold jewelry based on its weight and purity, offering you a fair market price. This is an ideal solution for those looking to liquidate unused gold assets or reinvest in other gold products.

Gold Safekeeping and Storage

For clients who prefer not to keep their gold assets at home, we offer gold safekeeping services. At Tobit International, we understand the importance of securely storing your gold investments. Our state-of-the-art vaults and security systems ensure that your gold is protected at all times, providing peace of mind to our clients. We offer flexible storage solutions, allowing you to store your gold for short-term or long-term periods. Each client's gold is securely stored, fully insured, and protected from theft, damage, or loss. You can access your stored gold whenever needed, and our team is always available to assist you with any questions or concerns
